

Teammates Commercial Interiors

Fact Sheet

We are a Denver-based, privately owned office furniture dealer that helps our clients gain a competitive advantage through effective design, implementation and management of their office environment. Founded by two friends with experience in the office furniture industry, Teammates has built a strong reputation for superb customer service and a consultative approach fostered by the company's independent status. Unlike many of its competitors, Teammates is not owned by a furniture manufacturer, nor does it have exclusivity agreements with these manufacturers. This independent status allows for independent product recommendations based exactly on what clients need versus being tied to one specific manufacturer. In 2001, Teammates was named to the Inc. 500 list of the "Top 500 Fastest Growing Private Companies."

Teammates' office and showroom is located at [Belmar](#), Lakewood's new urban center - just minutes from downtown Denver.
