**Teammates Commercial Interiors Wins
Contract with Spectranetics Corporation**

Lakewood, CO June 27, 2007 – Teammates Commercial Interiors announced today that it has been awarded a contract to supply office-space design and installation services as well as office furniture to Spectranetics Corporation - one of the top 100 growing businesses in Colorado

This multi-phased project will ultimately provide 200 Teknion Leverage workstations, 30 private offices, seating and other related accessories to furnish Spectranetics new corporate headquarters. Teammates will work with their own internal design team as well as UGL Equis to provide new product solutions and relocation strategies for existing furniture - in order to best maximize efficiencies and provide Spectranetics the aesthetics, functionality and long product life-cycle they require.

"Spectranetics was looking for a partner to help them manage change over time. Our focus is on providing Spectranetics a cost-effective solution that will adapt to their workplace needs over the long-term," noted Teammates Executive Vice President Robert Neuman.

"We needed to consolidate our facilities for improved efficiencies and better communications; and still have the flexibility to seamlessly adapt to future growth. Teammates had the consultative approach needed to successfully meet our project goals and requirements." Stated Wade Bowe, Vice President of Catheter Production and Development for Spectranetics.

About Spectranetics

Spectranetics Corporation (Nasdaq:SPNC) is a medical device company that develops, manufactures and markets single-use medical devices used in minimally invasive surgical procedures within the cardiovascular system in conjunction with its proprietary excimer laser system. Its CVX-300(R) excimer laser is the only system approved by the FDA for multiple cardiovascular procedures, including coronary atherectomy, and the removal of problematic pacemaker and defibrillator leads. Nearly all of the company's FDA-approved and investigational applications have received Communautés Europeennes (CE) mark registration for marketing within Europe. In April 2004 Spectranetics obtained 510(k) clearance from the FDA for the laser-based treatment of patients suffering from total occlusions (blockages) in their leg arteries that are not crossable with a guide wire.
